Swifty

Core Components of Search360
## Integrated. Intelligent. Unified.

Google Business Profile Management

- Top-to-bottom optimization
- Real-time pricing and floorplan availability updates
- Dynamic, high-quality posts 3x per week with CTAs

Hyper-Effective Local Pages

- Local search technology that generates hundreds of hyper-specific, renter-focused pages
- Content tailored to neighborhoods, renter intent, keywords, and search phrases
- AI-generated, human-reviewed content for accuracy
- Drives more high-quality renters directly to your website

Keyword Strategy

A continuously updated keyword system of hyper-local and niche renter search phrases, strategically deployed across your website, GBP, FAQs, and landing pages to capture every renter search.

Smart FAQs

We automate FAQ creation and structure it for AEO, distributing content across same key renter touch points as keywords. This positions your property as the answer to the questions renters search.
